

## T&H SENSOR - for plate 503 | cod.9.000.086

**ezone.io T&H Sensor is a smart sensor that can measure the temperature and humidity levels in an environment.**

The **ezone.io temperature and humidity sensor** is designed to be inserted into a normal 503 box.

Thanks to its precision, it reliably detects the temperature and relative humidity, allowing you to maintain total control over the climate of your home.

**ezone.io T&H Sensor** is compatible with all other devices in the Ezone.io system and, combined with the **climate manager** device, allows you to manage the climate automation of your home.

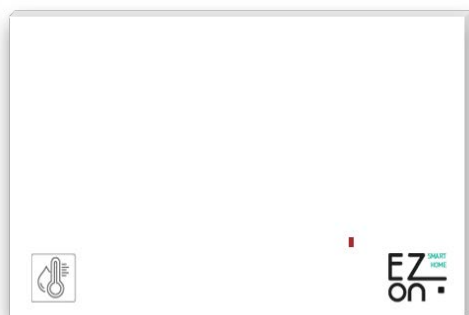

The installation and management of the sensor are extremely simple and thanks to the **ezone.io app**, you can monitor the device and connect it to voice assistants such as **Amazon Alexa and Google Home** to customize your automation experience.

The sensor is equipped with an advanced chip that offers optimal reactivity.

The possibility of remote updating of the control software allows ezone.io to keep your device always updated and performing.

The device in this version is designed to fit inside a 503 box, for example to replace an existing chrono-thermostat and the elegant closing plate makes it a discreet object.

In short, **ezone.io T&H Sensor** represents a new level in home environmental monitoring. With its precision, advanced connectivity and intelligent features, it offers impeccable control and optimal comfort for your home.

Product code: 9.000.086

Size: 120mm x 80mm - height 12,5mm

Operating temperature: from -40°C to +50°C

Operating humidity: from 0% to 100% relative humidity

Power supply: 210-220V AC (requires ezone.io power supply cod 9.000.033)

 **MADE IN ITALY**

**FC RoHS CE** 

### Why choose Ezone.io Temperature and Humidity Sensor?

This sensor represents a modern and precise solution for home environmental monitoring. Thanks to its compatibility with the ezone.io app and voice assistants, easy installation in a 503 box, and its ability to transmit data in real time, it offers maximum comfort and control for your home. With the Ezone.io temperature and humidity sensor, optimizing the home environment has never been easier.

The ezone.io ecosystem is manageable and programmable with the ezone.io companion APP. Available for free download from App Store and Google Play.

The ezone.io products should not ever be used in any way to manage medical devices or other technical products which are critical for the functioning of lifesaving or supporting systems, cause in the case of failure that may lead to the death or injury of a person. Usage of ezone.io devices in such systems requires the explicit written permission of the Mediatech Srl CEO.
