T&H SENSOR - wall installation | cod.9.000.087

The ezon.io temperature sensor can determine the level of temperature or humidity present in an environment.

ezon.io T&H Sensor, characterized by a minimal and modern design, allows you to monitor the environmental conditions in your home or in any other internal environment.
Thanks to its precision, it reliably detects the temperature and relative humidity, allowing you to maintain total control over the climate of your home.
ezon.io T&H Sensor is compatible with all other devices of the Ezon.io system and, combined with the **climate manager** device, allows you to manage the climate automation of your home.
The installation and management of the sensor are extremely simple and thanks to the **ezon.io app**, you can monitor the device and connect it to voice assistants such as **Amazon Alexa and Google Home** to customize your automation experience.
The sensor is equipped with an advanced chip that offers optimal reactivity.
The possibility of remote updating of the control software allows ezon.io to keep your device always updated and performing.
The device in this version does not require the ezon.io power supply cod 9.000.033 and is designed to be positioned directly on the wall and powered with a voltage of 85-240V AC; the elegant closing plate makes it a discreet object.

In short, the **Ezon.io Temperature and Humidity Sensor**, represents a new level in home environmental monitoring. With its precision, advanced connectivity and intelligent features, it offers impeccable control and optimal comfort for your home.

Product code:	9.000.087
Size:	60mm x 60mm - height 32mm
Operating temperature:	from -40°C to +50°C
Operating humidity:	from 0% to 100% relative humidity
Power supply:	85-240V AC (direct feed)

🇮🇹 MADE IN ITALY

FC RoHS CE 🗑

Why choose Ezon.io Temperature and Humidity Sensor?
The Ezon.io sensor is an excellent choice for those looking for precision and reliability in monitoring environmental conditions. With its elegant design, compatibility with the main voice assistants and the possibility of monitoring data in real time via the app, it offers intelligent and optimal control to improve home comfort.

The ezon.io ecosystem is manageable and programmable with the ezon.io companion APP. Available for free download from App Store and Google Play.
