

AC MOTOR ACTUATOR cod.9.000.085

Product code:	9.000.085
Sizes:	38mm x 29,5mm x 14mm
Input n°:	2
Relay characteristics:	AC 90V-250V 50/60Hz Max 7A
Control elements:	bidirectional AC motor with mechanical limit switch
Supply voltage:	5VDC (use cod. 9.000.033)

 **MADE IN ITALY**

 **RoHS**  

ezon.io AC Motor Actuator is the ideal device to make your motorized shading system smart. Whether it is roller shutters, awnings, sunshades, garage doors or side-sliding gates, this innovative actuator allows you to easily automate and manage your systems.

Simplicity and Versatility

Simply connect the **ezon.io AC Motor Actuator** to your 4-wire (up, down, common, and ground) electric roller shutter motor and you can conveniently control it with a physical switch, an ezon.io button, or through the **ezon.io smart home app** from your smartphone or tablet. In addition, you can also control it vocally via your favorite voice assistant, such as **Amazon Alexa** or **Google Home**.

Compact and Easy to Install

The **ezon.io AC Motor Actuator** module is so compact that it can be easily installed in the 503 box, junction box or wall socket. Thanks to this feature, you can transform all 4-wire electric roller shutters and awnings (up to 7A) into smart devices, while maintaining the function of the physical switch.

Complete and Customizable Control

With **ezon.io AC Motor Actuator** and the **ezon.io smart home app**, you can easily control the positioning of your roller shutters with a simple click. For example, you can open or close them completely or partially, and even create custom scenarios for each device, based on your needs or environmental conditions.

Set up smart scenes that, for example, automatically open the blinds to 50% at dawn or create custom timers to automatically manage the blinds. In addition, you can use your voice commands to manage the system: just say "raise" or "lower" to control the blinds with ease.

Energy Saving

With the **ezon.io AC Motor Actuator**, you can achieve energy savings of up to 44% on your consumption. The ability to adjust each individual roller shutter allows you to optimize energy use based on your daily needs.

Remote Control and Easy Sharing

With the **ezon.io smart home app**, you can monitor and control your roller shutters from anywhere: whether you are on the sofa or on vacation, you will always have full control of the opening/closing status of the roller shutters, thanks to the **Wi-Fi** connection and the **ezon.io Hub**.

Furthermore, the **ezon.io AC Motor Actuator** supports sharing the system with your family members, allowing everyone to control the roller shutters with their own smartphones.

The ezon.io ecosystem is manageable and programmable with the ezon.io companion APP. Available for free download from App Store and Google Play.

The ezon.io products should not ever be used in any way to manage medical devices or other technical products which are critical for the functioning of lifesaving or supporting systems, cause in the case of failure that may lead to the death or injury of a person. Usage of ezon.io devices in such systems requires the explicit written permission of the Mediatech Srl CEO.
