

# POWER SUPPLY 24V cod.9.000.077

Product code:	9.000.077
Sizes:	56 x 31 x 32mm
Input voltage:	85 ~ 305VAC - 120 ~ 430VDC
Output voltage:	24V
Output current:	0.63A

The Power Supply 85~305VAC 24Vdc 15W t features a universal input power supply voltage ranging from 85VAC to 305VAC. The power supply includes built-in EMI filtering components along with excellent EMC characteristics that prevent electromagnetic interference.

## Features and Benefits

Extremely versatile

Low no-load power consumption less than 0.1W.

High efficiency up to 83%

Overload, Overvoltage and short circuit protection

Cooled by natural convection

100% full load burn-in test

High reliability

**This ballast is to be used to power Dali devices.** For all other devices, use the 5V 3W Power Supply (code 9.000.033).

The ezon.io ecosystem is manageable and programmable with the ezon.io companion APP. Available for free download from App Store and Google Play.

The ezon.io products should not ever be used in any way to manage medical devices or other technical products which are critical for the functioning of lifesaving or supporting systems, cause in the case of failure that may lead to the death or injury of a person. Usage of ezon.io devices in such systems requires the explicit written permission of the Mediatech Srl CEO.
