

TOUCH RELAY cod.9.000.004

Product code:	9.000.004
Size:	18 x 39 x 29mm
Input n°:	1 touch-sensitive
Relay features:	AC 90V-250V 50/60Hz Max 10A
Supply voltage:	5VDC (use cod. 9.000.033)

 **MADE IN ITALY**

 **RoHS**  

Ezon.io Touch Relay is an innovative solution that can be used as an alternative to ezon.io Switch Relay, recognizing the touch on the blind cap. Offering a touch control, it not only manages the ON/OFF functions, but also allows you to activate scenarios and adjust the light intensity of the **Illunaluca x ezon.io lamps**.

This is an input reading device containing a programmable and configurable relay.

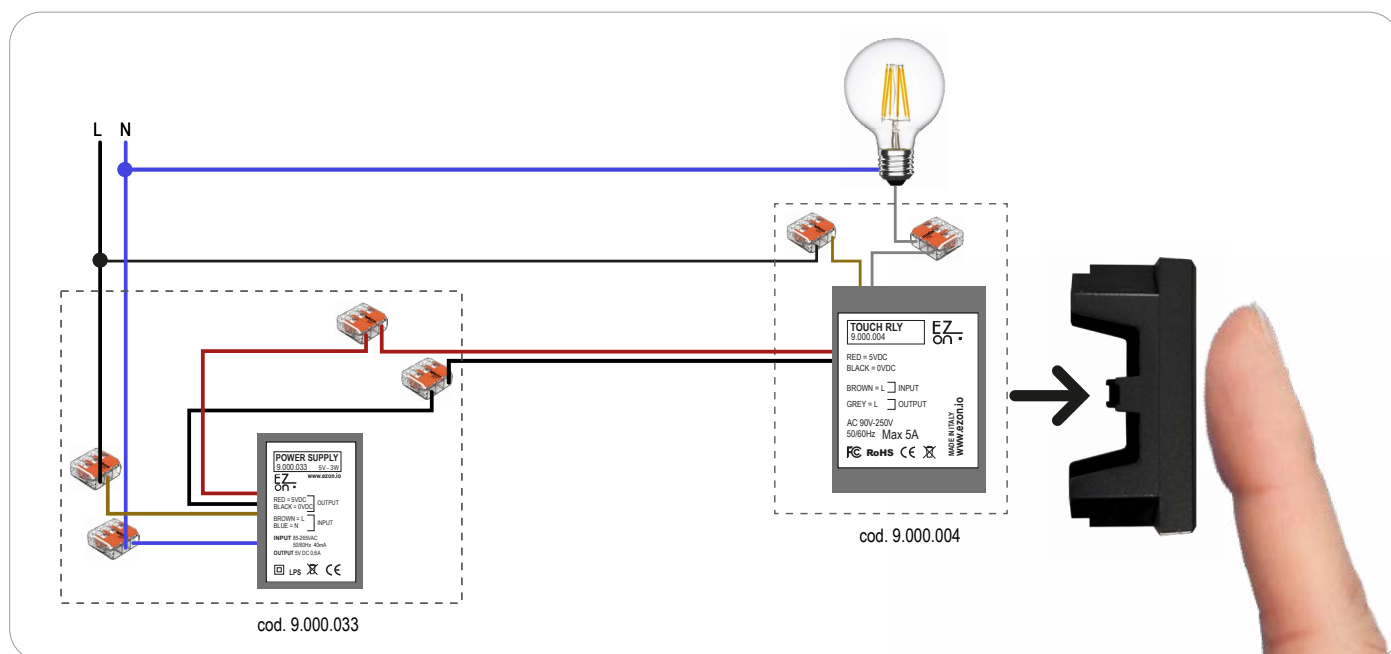

Each connected button can activate one or more actions simultaneously, or different actions based on the time slot, ensuring flexibility and customization. Programming is simple and intuitive, and can be done via the **ezon.io Smart Home App**, without the need for a technician.

Combined with the ezon.io Mini Hub, the ezon.io Touch Relay allows remote control of connected appliances, even via voice commands thanks to compatible voice assistants.

Another distinctive aspect of the **ezon.io Touch Relay** is its very low power consumption, which not only optimizes energy use, but also helps reduce operating costs.

It is essential to underline that the Hub or a **WiFi network are not required for the correct functioning of the ezon.io Touch Relay**.

In short, the **ezon.io Touch Relay** is the perfect choice for those looking for advanced, flexible and personalized control of electronic appliances. With its numerous features, including manual activation of scenes and the execution of synchronized actions, it allows you to optimize automations and create a smart and reliable home automation environment.

The ezon.io ecosystem is manageable and programmable with the ezon.io companion APP. Available for free download from App Store and Google Play.

The ezon.io products should not ever be used in any way to manage medical devices or other technical products which are critical for the functioning of lifesaving or supporting systems, cause in the case of failure that may lead to the death or injury of a person. Usage of ezon.io devices in such systems requires the explicit written permission of the Mediatech Srl CEO.
